Lawn Grass Fertilizers & Plant Foods

VEGETABLE FERTILIZERS

Natural manures are the best fertilizers for vegetable gardens, also for conditioning clay and poor soils.

ARCHER-BRAND PULVERIZED SHEEP MANURE

Frequent feeding of 'Archer Brand' produces crisp, tender vegetables. Plants lacking food stop growing and become tough and tasteless. Whenever your crop shows signs of lagging, cultivate with an application of 1000 to 1200 lbs. of 'Archer Brand' per acre. It builds up the soil, and speeds up production making possible the production of at least two crops from the same soil each year.

SHEEP MANURE

Archer Brand pulverized sheep manure which is treated to kill weed seeds which are so often found in natural manures. Put up in paper lined bags. Gives immediate results, easy to apply and is a well balanced lawn fertilizer. Analysis: 2% Nitrogen; 1% Phosphoric Acid; 2% Potash. 50-lb. bag, \$1.25; 100-lb. bag, \$2.30.

BONE MEAL (Raw)

Fine ground Bone Meal. Has been used for years and is still popular. Ask for prices.

HYDRATED LIME

Will correct, and prevent sour soil if used as a top dressing on lawns in fall or early in spring. 10 lb. pkg., 35c; 50 lb. bag, 95c; 5 50-lb. bags, \$4.50.

PEAT MOSS

Horticultural Grade

Peat moss is not a fertilizer, but, when used on the lawn as a top dressing, prevents soil from baking and crusting in hot weather.

Canadian—Lb., 15c; 2-bushel bag, \$1.50; ½ bale, \$2.75; per bale, \$4.75.

ADCO FOR MAKING ARTIFICIAL MANURE

Mix ADCO with leaves, weeds, vines, clippings, cuttings, straw, cornstalks, etc., and turn them into rich plant food. It's easy—anybody can do it—and every pound of ADCO makes 40 pounds of splendid fertilizer. 7½ lb. carton, \$1.00; 25 lb. bag, \$2.50; 100 lbs., \$8.50.

MISCELLANEOUS PLANT FOODS

NITRATE OF SODA—16% Nitrogen. Lb., 15c; 10 lbs., \$1.00; 25 lbs., \$1.75; 50 lbs., \$2.75; 100 lbs., \$5.00.

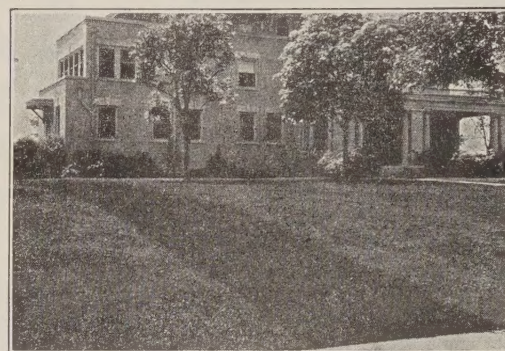

SULPHATE OF AMMONIA—20% Nitrogen. Ask for prices.

MURIATE OF POTASH—50% Potash. Ask for prices.

SUPER PHOSPHATE—20% Phosphoric Acid. Ask for prices.

VIGORO

A complete plant food for grass, flowers, trees, vegetables and house plants. Contains all the elements. Analysis: 4% nitrogen, 12% Phosphoric Acid, 4% Potash. Also contains the following essentials to plant growth: CALCIUM, SULPHUR, BORON, IRON, COPPER, MANGANESE, MAGNESIUM and ZINC.

Vigoro was used on this green strip. Shown on above lawn.

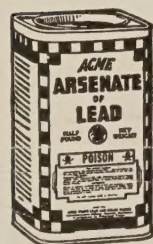

Vigoro produces really thrilling results on all growing things . . . economically! That's why it is America's largest selling lawn and garden plant food.

Vigoro supplies, in properly balanced proportions, all 11 food elements plants need from the soil. It always works . . . because it does what ordinary, incomplete fertilizers just can't do. Vigoro is the soundest protection of your investment in your lawn and garden.

Vigoro is safe, sanitary, odorless, and easy to apply. And a little of it goes so far! A single 100 pound bag of Vigoro will completely feed an area of 2,500 square feet. 1 lb. pkg., 10c; 5 lb. pkg., 45c; 10 lb. pkg., 85c; 25 lb. pkg., \$1.50; 50 lb. bag, \$2.50; 100 lb. bag, \$4.00; 500 lbs., \$17.50.

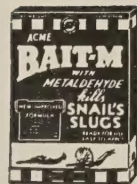

INSECTICIDES AND SPRAYING MATERIALS

AMMATE WEED KILLER—A new DuPont Chemical Ammonium Sulfamate, kills most all weeds and grass and is especially effective on such as Poison Ivy, Poison Oak, Poison Sumac. Use ¾ lb. to 1 lb. per gal. of water and apply with a sprayer or use dry mixed with sand and apply by hand. 2 lb. jar, 75c; 6 lb. pkg., \$2.00.

ARSENATE OF LEAD—Powder. Superior to paste in that it does not deteriorate from standing. 1 lb., 45c; 4 lbs., \$1.25.

BAIT-M. Acme.—An effective bait for controlling cutworms, slugs, snails, grasshoppers, earwigs, sowbugs, etc., etc. It is a ready prepared meal, packed in cartons and bags, that is simply broadcast on the ground under and around the vegetation. Water, rain or sprinkling will not harm it and it will not harm the plant. 1 lb. pkg., 35c; 2½ lbs., 75c; 10-lb. bag, \$2.00.

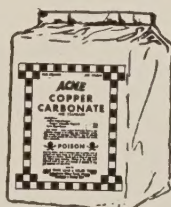

BLACK LEAF 40.—A concentrated nicotine solution for aphids, thrip and red spider. Dilute 1 oz. with 3 to 6 gallons of water. 1 oz. bottle, 29c; 5 oz. bottle, 89c; 1 lb. bottle, \$2.25; 2 lb. can, \$3.92; 5 lb. can, \$7.40.

BORDEAUX MIXTURE.—Powder. Can be used dry or as a spray. When used as a spray 6 lbs. to 50 gallons of water will make standard 3-3-50 mixture. 1 lb., 40c; 4 lbs., 95c.

COPPER CARBONATE. Controls root rot on iris. 1 lb. pkg., 35c; 5 lb. pkg., \$1.25.

DOGZOFF.—Discourages dogs, keeps them from places where they are not wanted. Per bottle, 60c; pint, \$2.50.

FORMACYDE (Formaldehyde Dust). For damping-off control of seedlings use 1½ oz. of Formacyde Dust per square foot of area of soil in beds, benches or flats 2½ to 3 inches deep. Where soil is 3 to 4 inches deep use 2 to 3 oz. of dust, ½ lb., 50c; 1 lb. can, 85c; 5 lb. can, \$2.50.

FISH OIL. Soap.—Remedies for scale and aphids. 1 lb., 45c; 5 lbs., \$1.95.

KOPPER QUEEN (Acme).—A strong liquid copper spray for control of mildew, leaf spot and black spot on roses and other foliage. 8 oz. can, 35c; pint can, 60c; quart can, 95c.

LIME SULPHUR.—Powder. Apply 12 to 15 lbs. in 50 gals. of water. 1 lb., 37c; 5 lbs., \$1.55; 12½-lb. pkg., \$1.75; 100-lb. drum, \$14.00.

NAPHTHALENE FLAKES.—A small quantity mixed with the soil will prevent moles and rodents from destroying bulbs being planted. 1 lb., 25c; 5 lbs., \$1.00; 25 lbs., \$4.85.

ACME ROTENONE GARDEN GUARD A non-poisonous garden dust which controls many chewing and sucking insects; also controls Mexican bean beetles. 1 lb. pkg., 60c; 1 lb. Pump Gun Duster, 75c; 4-lb. bag, \$1.20.

ACME TOMATO DUST.—Controls blight, mildew and rust and other fungus diseases on tomato vines. 1 lb. pkg., 50c; 1 lb. Pump Gun Duster, Ea., 65c; 4-lb. pkg., \$1.05.

ACME ROSE SPRAY. Each set of Acme Rose Spray consists of three elements, giving complete protection from sucking insects, chewing insects and black spot and other fungus diseases. Packed in five size kits. Three separate cans to each kit.

| "C" Size Large Kit (makes 32 gal.) Each | 6.00 |
| "D" Size Estate Kit (makes 128 gal.) Each | 20.00 |

'DEAD SURE' RODENT DESTROYER

Mole and Gopher Extirminator

Looks like a large firecracker, but instead of exploding makes a poison gas which runs through runs and kills moles and gophers. Full directions on each exterminator. 3 for 25c; doz., 75c. Packed two dozen in a pkg.

ANTIRRHINUM—Snapdragon

MAXIMUM SUPER GIANTS (Rust Resistant)—In habit these are taller, grow to a height of 2½ feet, and the flowers are much larger. Best outside bedding kinds. Mixed, all colors: Pkt. 20c; 3 pkts., 50c.

Also separate colors in many kinds and kinds, white, rose, pink, yellow, copper, crimson, pure pink, scarlet. Any of the above: Pkt. 20c; 3 pkts., 50c. SUPER MAJESTIC, Rust Resistant, 16 to 20 inches. This type is base-branching which greatly increases its value for cutting. Superb Mixed, Pkt. 20c; 3 pkts., 50c.

Ageratum

MIDGET BLUE—Three-inch globular plants are smothered with Ageratum blue flowers. Most uniform in habit, truest in color yet produced. Pkt. 25c.

ALYSSUM

COMPACTUM (Violet Queen)—Distinct variety with bright violet flowers. ½ oz., 35c; ¼ oz., 60c; pkt., 15c. LITTLE GEM.—5 in. dense flower heads but not spreading. Oz., \$1.40; ¼ oz., 40c; pkt., 10c.

CARPET OF SNOW. (Procumbens Snowcloth). Well named. Very dense flat masses of white flowers, 3 to 4 in. high, by 8 in. wide. Exceptionally even strain. Pkt., 10c; ¼ oz., 40c.

MARITIMUM.—Sweet white, honey scented, 1 ft. Oz., 60c; ½ oz., 35c; pkt., 10c.

ASTERS

CALIFORNIA GIANT—2 to 3 feet. Their unusual beauty and size, as well as their long, sturdy stems of the non-lateral type, make them very attractive for floral decoration and particularly adapted for cut flowers. Rose, Light Blue, Purple, White, Carmine, Shell Pink, in separate colors, or all colors mixed. ½ oz., 40c; pkt., 15c.

GIANT BRANCHING—2½ to 3 feet. All wilt resistant. Branching habit, vigorous plants, large double flowers, stems long, vivid colors. White, Rose Pink, Deep Scarlet, Crimson, Lavender, Purple, or all colors mixed. ½ oz., 35c; pkt., 15c.

AMERICAN BEAUTY—2 to 3 feet. All wilt resistant. Early flowering type. Plants about 2 to 3 feet high, of branching habit, commencing to bloom in early September and lasting until destroyed by frost. Flowers large, borne on long and stout stems, from 18 to 24 inches. White, Pink, Carmine, Rose, Purple, Crimson or all colors mixed. ½ oz., 35c; pkt., 15c.

CANDYTUFT

GIANT HYACINTH-FLOWERED—Large, pure White flower; Oz., \$1.25; ¼ oz., 40c; pkt., 10c. Mixed colors: ¼ oz., 25c; pkt., 10c.

BULBS

Spring flowering bulbs, Gladiolus, Dahlias, Cannas, Begonias, Tuberose, Caladiums, and others, named and mixed kinds.

HARNDEN'S FLOWER SEEDS

CENTAUREA CYANUS

DOUBLE

CORNFLOWER OR BACHELOR'S BUTTON—3-ft. Annual. Special strains; the flowers of these strains are large, fully double and the colors intensified. Long stems for cutting. Blue Boy, Red Boy, Pinkie, Snowman White, or all colors mixed. ½ oz., 40c; ¼ oz., 25c; pkt., 15c.

JUBILEE GEM—A dwarf compact-growing form. Deep Blue flowers; good for pots and bedding; 12 in. ¼ oz., 50c; pkt., 15c.

CYNOGLOSSUM

CHINESE FORGET-ME-NOT

CYNOGLOSSUM BLUE AMABLE—A lovely plant 18 to 24 inches tall with flowers of a true Forget-Me-Not Blue. May be sown either outside or under glass. Makes wonderful cut flowers. ½ oz., 25c; pkt., 10c.

FIRMAMENT—New rich Blue. ½ oz., 25c; pkt., 10c.

CYPRESS VINE

Scarlet, White or mixed. ¼ oz., 40c; ½ oz., 25c; pkt., 10c.

COLEUS

Rainbow mixture, extra large leaved. Pkt., 35c.

COSMOS

GIANT FLOWERED—Red, Pink, White or all colors mixed. ¼ oz., 20c; pkt., 10c.

ORANGE FLARE—Bright vivid Orange. ½ oz., 35c; pkt., 15c.

SENSATION—The flowers are mammoth in size, 4 to 5 inches in diameter, with broad, heavy fluted petals carried on very long, strong stems. It is extremely early flowering, blooming in 10 weeks from the time of seeding. Pink, White or mixed. ½ oz., 50c; pkt., 25c.

DAZZLER—(New), dazzling crimson. ½ oz., 50c; pkt., 25c

DIANTHUS—PINKS

SPECIAL MIXTURE of Double and Single Pinks. This magnificent mixture contains the cream of the annual pinks, both single and double. ¼ oz., 50c; pkt., 10c.

SINGLE SWEET WIVELSFIELD—Mixed Colors. A cross of Dianthus Plumarius and Sweet William blooming the first year from seed. The flower heads resemble Sweet William in an almost unbelievable range of colors. ¼ oz., 50c; pkt., 15c.

CHINESE DOUBLE MIXED.—Handsome clusters of very double flowers, many bright colors. ¼ oz., 25c; pkt., 10c.

HEDDEWIGI—Double Japan, best mixed. ¼ oz., 25c; pkt., 10c.

LARKSPUR

GIANT IMPERIAL TYPE—In separate colors, deep Pink, Carmine Rose, Sky Blue, White, Rose Pink, Lavender, Lilac, also all colors mixed. Oz., \$1.60; ¼ oz., 50c; pkt., 15c; 6 pkts., 60c.

TALL BRANCHING DOUBLE STOCK FLOWERED TYPE Rose Pink, Rose, Salmon, Sky Blue, Dark Blue, Lilac, Rosy Scarlet, White, or all colors mixed. Oz., \$1.00; ¼ oz., 35c; pkt., 10c; 6 pkts., 50c.

NASTURTIUM

DOUBLE VARIETIES

SEMI-DOUBLE GLEAM—Fire Gleam, Scarlet, Orange Gleam, Salmon Gleam, Golden Gleam, Scarlet Gleam, Gleam Hybrids, all colors mixed. Oz., 35c; pkt., 10c.

SINGLE VARIETIES

Special Tall, mixed, Oz., 25c; ¼ lb., 65c; pkt., 10c
Special Dwarf, mixed, Oz., 25c; ¼ lb., 65c; pkt., 10c

We are listing the following new novelty and popular flower seeds in both separate and mixed colors. We carry many other varieties in Annuals, Biennials, Perennials as well as seeds for greenhouse sowing. All seeds are on display at our store.

PLANTS

We have arranged for annual and perennial seedling plants which will be ready in April depending on weather conditions, at very reasonable prices. Many of these perennial plants will bloom the first year.

ALL FLOWER SEEDS ON THIS LIST ARE POSTPAID

MARIGOLDS

MARIGOLD AFRICAN LITTLE GIANTS

MIXED—Throws blooms varying in form from the informal Carnation type to the perfect Flatulosa globe. The plants are very closely compact and the stems short. Little Giants range in height from 10 to 15 inches. Color ranges from a Yellow to a very bright Orange. ½ oz., 50c; pkt., 15c.

MARIGOLD (Double French) SCARLET GLOW

The brightest Red of All Dwarf Double French Marigolds. Flowers open deep scarlet and as they age they turn to a rich tangerine color. They are fully double, 1¾ to 2 inches across, and borne most profusely on dwarf plants which obtain a height of 10 inches and a spread of 18 inches. Begins to bloom in 10 weeks from seed and continues until frost. Ideal for beds, borders and edgings; stems are long enough for cutting. ½ oz., 50c; pkt., 25c; 2 pkts., 45c.

MARIGOLD (Double French) SPRY

The most profuse blooming of all Marigolds. Plants are of the true Lilliput form, extremely dwarf and compact, being about 9 inches high and spreading 15 inches. Suited for borders, edgings, and pots. Flowers grow 1½ inches across and have a bright, clear yellow created center surrounded by several rows of mahogany red guard petals. These flowers cover the tiny plants which come into bloom in less than 9 weeks from seed. ½ oz., 50c; pkt., 25c.

TALL AFRICAN VARIETIES

"Alldouble Orange" ½ oz., 50c; pkt., 15c
"Alldouble Lemon" ½ oz., 50c; pkt., 15c
"Alldouble Mixed" ½ oz., 50c; pkt., 15c

DWARF FRENCH VARIETIES

HARMONY (Double)—A remarkable break which differs from others in habit, shape, and coloring. Flowers, in form suggesting a Scabiosa, are a bright golden-yellow bordered with a rich maroon-red. The plants being about 12 inches high, and very bushy habit, form excellent material for bedding. ¼ oz., 60c; ½ oz., 35c; pkt., 15c.

DWARF (Double)—French mixed. ¼ oz., 35c; pkt., 10c.

CARNATION FLOWERED VARIETIES

GUINEA GOLD.—2 to 2½ ft. The original Carnation-flowered type, producing flowers 2 to 2½ inches across of brilliant orange flushed with gold. Practically 100% double. This is an early flowering sort. The absence of the characteristic marigold odor has been in its favor. ½ oz., 35c; pkt., 10c.

YELLOW SUPREME.—A fitting companion to that great cut flower "Guinea Gold." Large, fluffy carnation-flowered blooms. Dazzling lemon-yellow color. Practically odorless foliage. ¼ oz., 50c; pkt., 10c.

POPPY (Annual)

POPPY SINGLE SHIRLEY—
American Legion, Brilliant Scarlet, White Maltese
Cross: oz., 75c; ¼ oz., 25c; pkt., 10c.
Finest Mixed: oz., 75c; ½ oz., 40c; pkt., 10c.

MORNING GLORY

PEARLY GATES

The flowers are a lovely lustrous White with creamy shading deep down in the throat. They average four and one-half inches across. Pkt., 25c; 2 pkts., 45c.

CLARK'S IMPROVED HEAVENLY BLUE—The color is deep, intense blue, shading lighter toward the center. The flowers are large and freely produced. Oz., \$1.00; ¼ oz., 30c; pkt., 15c.

SCARLET O'HARA

"Scarlet O'Hara" is an entirely new color in a Morning Glory, a rich Dark Wine Red, or Deep Rosy Crimson. Though the flowers are not as large as "Heavenly Blue," they are of good size, about 4 inches in diameter, and freely produced on fast growing vines which start blooming within 65 days after seed is sown. Pkts., 20c; ¼ oz., 60c; oz., \$2.00.

CORNELL

This new variety Cornell combines the brilliant coloring of Scarlet O'Hara with the size of bloom and robust habit of the Heavenly Blue Morning Glories. The blooms are large, 4 to 4½ inches in diameter, in an intense shade of Carnelian Red with a border a little over an eighth of an inch wide of pure glistening White, the colors of Cornell University. Pkt., 20c; ¼ oz., 50c.

PETUNIAS

DWARF HYBRIDS

This dwarf compact class is the most popular for bedding. Make a vigorous growth and do well under the most trying conditions; also are grown in flats and pots. Blue Bird. (Blue Rosy Morn). ½ oz., 50c; pkt., 15c

CELESTIAL ROSE—Improved. This is a big improvement over that old favorite, Rose of Heaven. Beautiful, rich satiny, deep rose and unusually free blooming. Pkt., 25c.

ROSY MORN—Improved select stock, Rose color, is stronger and deeper; very dwarf strain. Pkt., 15c; ½ oz., 50c.

ROSE OF HEAVEN—Select strain. Rose Pink. Pkt., 25c; ½ oz., \$1.50.

SNOWBALL—Dwarf White. Pkt., 10c; ½ oz., 75c.

GENERAL DODDS—Strong crimson-red. Pkt., 15c; ½ oz., 75c.

HARNDEN'S SPECIAL DWARF MIXTURE—Small flowering sorts. ¼ oz., 85c; ½ oz., 50c; pkt., 15c.

BALCONY TYPE PETUNIAS 18-24 in.

Single large flowering sorts, trailing habit.

Balcony Black Prince—dark rich crimson.

Balcony Cornflower Blue—rich blue.

Balcony Red, Balcony Rose, Balcony White. Of the above, pkt., 25c; any 3 for 65c.

Balcony Mixed. 1/16 oz., 60c; pkt., 25c.

PETUNIAS—(Cont.)

DWARF GIANTS OF CALIFORNIA—A real dwarf strain especially good for pot plants as it starts to bloom when three or four inches tall. Giant flowers; colors largely dark rich shades. Pkt., 50c.

PETUNIA—DWARF CALIFORNIA GIANTS

IMPROVED DWARF ELK'S PRIDE—The type is real dwarf. The color is a richer velvety purple than usual and the plants produce larger blooms than found on any other Hybrid Grandiflora Variety. Pkt., 25c; 2 pkts., 45c.

PORTLAND PETUNIAS

For Bedding or Pot Plants, Window and Porch Boxes
PRIDE OF PORTLAND—Deep rose fringed. Pkt., 25c.
SCARLET BEAUTY—Scarlet fringed. Pkt., 25c.
ELK'S PRIDE—Plain edge black purple. Pkt., 25c.
DWARF PINK GLORY—A pure flame rose pink, without a trace of purple. Pkt., 25c.

PORTULACA

Single large-flowering, mixed. ½ oz., 50c; ¼ oz., 90c; pkt., 10.

Double sorts, mixed ¼ oz., \$1.25; ½ oz., 75c; pkt., 15c

SWEET PEAS

SUMMER FLOWERING SPENCER—In the following colors, Lavender, Pink, Salmon Pink, Blue, Rose, White, Scarlet, Cerise, Orange, also all colors mixed. ¼ lb., 60c; 2-oz. pkt., 40c; 1 oz., 25c; pkt., 10c.

EARLY FLOWERING SPENCER

True large spencer type but flower about one month earlier, in the following colors: Lavender, Pink, Salmon Pink, Blue, Rose, White, Scarlet, Cerise, Orange, also all colors mixed. Oz., 65c; pkt., 25c.

VERBENA

GIANT FLOWERED

A magnificent new strain of Verbena of robust compact habit and free blooming. The trusses are immense, the individual florets measuring fully an inch in diameter. White, Red with cream eye, Pink, Lavender, Red, Pink with white eye, Purple. All colors, mixed. Pkt., 15c; ½ oz., 50c.

SPECTRUM RED (New)—Intense Bright Red. ½ oz., 50c; pkt., 15c.

BEAUTY OF OXFORD—Rose Pink to Rose Red shades. Pkt., 15c; ½ oz., 50c.

CRIMSON GLOW—Glowing Crimson. ½ oz., 50c; pkt., 15c.

ZINNIAS

BODGER'S FAMOUS GOLD MEDAL ZINNIAS

DAHLIA FLOWERED CLASS

The plants grow tall, are well branched and the colors are very distinct and striking; the flowers are double and large, measuring from 5 to 6 inches across. In many separate colors. Yellow, Red, Lavender, Orange, Gold, Deep Rose, Orange and Gold, Scarlet, White, Purple, Lemon, Royal Purple, all named varieties. Oz., \$1.50; ¼ oz., 50c; pkt., 15c.

GOLD MEDAL HYBRIDS—A superior mixture containing many new varieties from the trial grounds of the originator and the better named varieties. Oz., \$1.50; ¼ oz., 50c; pkt., 15c.

CALIFORNIA GIANT CLASS

They are larger than Colossal and a cross between them and the Dahlia Flowered types. They have smaller flat centers with more loosely placed petals. The petals are decidedly imbricated and the flower from bud to full bloom presents a graceful appearance. In many separate colors all named varieties. Canary Yellow, Orange, White, Cerise Rose, Pink, Rose Scarlet, Dark Red, Lavender, Salmon Rose, Purple, also all colors mixed. Oz., \$1.50; ¼ oz., 50c; pkt., 15c.

LILLIPUT CLASS

POMPOM OR BABY ZINNIAS—The Lilliputs are among the most popular Zinnias for cut flower use. The flowers are small, compact, and symmetrical, and strong stemmed. Scarlet, White, Golden Yellow, Crimson, Salmon Rose, Rose Pink, Lilac Purple, Black Ruby, Burnt Orange and all colors mixed. Oz., \$1.50; ¼ oz., 50c; pkt., 15c.

ELEGANS CLASS

(CUT AND COME AGAIN)

A group with double, perfectly formed, medium sized flowers and bred with long stems; exceptionally fine for cut flowers. This is a "Cut and Come Again" group and is especially fine for massing in the garden and produces a continuous succession of cut flowers throughout the Summer. Bright Scarlet, Canary Yellow, Crimson, Flesh, Golden Orange, Salmon Rose, Rose Pink, White and all colors mixed. Oz., \$1.25; ¼ oz., 35c; pkt., 10c.

FANTASY CLASS

ZINNIA FANTASY

Fantasy is the most fascinating new Zinnia type introduced to the flower world in many years. The very informal, shaggy appearing flowers are graceful and interesting, quite distinct from the stiff, formal zinnias to which we are accustomed. In separate named varieties. Bright Rose, Orange, White, Golden Yellow, Rich Scarlet, and all colors mixed. Oz., \$2.00; ¼ oz., 60c; pkt., 15c.

GARDEN, FLOWER AND GRASS SEEDS HARNDEN'S SEED STORE

507 Walnut St. VI. 1618

61st Year

KANSAS CITY 6, MO.

61st YEAR

SEEDS FOR YOUR VEGETABLE GARDEN

61st YEAR

Continue Your Vegetable Garden

ASPARAGUS

1 oz. to 100-foot row. 4 lbs. to acre.

TABLE BEETS

1 oz. to 100 feet. 5 lbs. to acre.

MARY WASHINGTON—A recently developed rust-resistant strain, producing large deep green sprouts of splendid quality. Pkt. 10c; oz. 25c; ¼ lb. 75c.

ROOT PLANTING. A year may be saved by buying the plants and setting them at least two feet apart in the row, and the rows not closer than four feet; see that the roots are well and evenly spread out in planting.

ASPARAGUS ROOTS—2-year-old roots. Doz., 65c; 25 for \$1.20; 100, \$3.50. Do not cut the first year.—Prepaid.

GARDEN BEANS

1 lb. to 100-ft. row. 60 lbs. to acre.

CULTURE. There is hardly a vegetable that contributes to the table as liberally as the snap bean. It is easy to grow and a heavy producer. Beans should be planted at intervals so that one may always have a fresh patch to depend upon.

For the best crops beans require good rich soil and frequent hoeing. The young plants are very tender and cannot withstand even slight frosts. The seed should not be planted until the soil has become well warmed and all danger of frost is over. Space or plow deeply and plant in rows 2 feet apart, scattering the seed about 3 inches apart in the row, and cover 2 inches deep. Hoe frequently, but never when the foliage is damp from dew or rain. Hoeing should be done shallow so that the roots are not injured.

BRUSSELS SPROUTS

¼ oz. to 100-ft. row. 2 oz. to acre.

Brussels Sprouts are miniature cabbage formed on a plant stalk. The delicate flavor is improved by a touch of frost. The culture is practically the same as for cabbage. For late use sow seed in June.

LONG ISLAND—Hardy and a heavy yielder. A fine variety originated and grown in Denmark. Pkt. 15c; oz. 90c; ¼ lb. \$2.50.

COLLARDS

¼ oz. to 100-ft. row.

A tall, loose leaved cabbage-like or kale-like plant grown throughout the South. It is extensively used for the table and for stock in the South where it continues in growth and is usable throughout the entire winter. Collards usually succeed in locations where cabbage cannot be grown to perfection.

SEEDS FOR YOUR VEGETABLE GARDEN

FEBRUARY 1947

Established 1886

CABBAGE

Copenhagen Market Cabbage

¼ oz. to 100-ft. row. 2 oz. to acre.

CULTURE. Start with good seed. For extra early use, seed may be sown in January or February very thinly in hotbeds—for medium early, start seeds last of February or early March in hotbeds, but glass is not required. Muslin covers are satisfactory. For late crop, start the seed in cold frames in late April or early May and not over one-fourth inch deep. Plants should be set in rows 2½ to 3 feet apart and 12 to 18 inches in row.

CARROT

½ oz. to 100-ft. row. 2½ lbs. to acre.

CULTURE. The Carrot will do well in any good, well worked soil. For early use sow the seed when the ground is fit to work, in rows 15 inches apart, and when 2 inches high, thin out so that the plants stand 2 inches apart in the row. For fall and winter use, sow the seed from the 1st to the 15th of June. The roots may be stored in cellar or pit, covered with dirt, where they will keep solid until late in the Spring.

CAULIFLOWER

¼ oz. to 100-ft. row. 1 oz. to 3,000 plants. 4 oz. to acre.

CULTURE. Grows well in cool weather, and in general should be grown like cabbage. For early crop, sow in hotbed in January or February, and transplant when danger of freezing is past. For late crop, sow in May or June and grow like late cabbage. Set the plants about 18 inches apart in rows 2 to 2½ feet apart. An ounce of seed will produce about 3000 plants; ¼ lb. is enough for an acre.

| Pkt. | ¼ Oz. | ¼ Oz. |
|---------------------|--------|--------|
| Super Snowball..... | \$.25 | \$.75 |

CELERY

¼ oz. to 100-ft. row. 1 oz. to 15,000 plants. 4 oz. to acre.

CULTURE. Sow in drills early in spring as soon as the ground can be worked. The soil should be rich and well prepared. Cover the seed lightly with fine earth, tamping in firmly. Keep moist to insure germination and quick, vigorous growth. In order to secure stocky plants cut off the tops once or twice before transplanting to the field or garden. Set plants 6 to 8 inches apart in rows from 3 to 4 feet apart. Transplanting should be done about the last of June. Care should be taken to firm the earth well around the roots of the plants; work up the soil between the rows, drawing it to the plants from time to time until they are covered to the very tops.

| Giant Pascal..... | \$.15 | \$.85 |
| Giant Smooth Prague..... | .15 | .85 |

CANTALOUPE

1 oz. to 100 hills. 2 lbs. to acre.

CULTURE. Prepare hills, 4 to 6 feet apart, in a rich, moderately dry sandy soil, using well-rotted manure. When frost is over, plant 10 to 12 seeds in each hill about one inch deep, and when well up, thin out, leaving four strong plants to the hill. Pinch off the ends of the vines when about a foot long; this will make them strong and bear more freely. Give frequent but shallow cultivation till the vines cover the ground. Do not grow near cucumbers, squashes, etc.

CELUTCE

¼ oz. to 100-ft. row.

CURLED, or PEPPER GRASS—This small salad is much used with lettuce, to the flavor of which its warm, pungent taste makes a most agreeable addition. Sow thickly in drills 16 inches apart. 40 days. Pkt. 10c; oz. 50c.

WATER CRESS—Pkt. 15c; oz. 60c.

CUCUMBER

1 oz. to 100 hills. 2 lbs. to acre.

CULTURE. Plant when the weather becomes settled warm, about the end of April or during May, not over an inch deep, in hills four feet apart each way. The hills should be previously prepared by mixing well-rotted manure with the soil. Put ten seeds in each hill, thin out to four plants, and give frequent but shallow cultivation. For picking, plant in June or July.

EGGPLANT

An ounce produces about 1,000 plants.

CULTURE. Plant in hotbed in February or March and keep well protected so that the growth be rapid and not checked. When 2 inches high, transplant to pots, boxes or in the beds 3 to 4 inches apart, and when frost is past, set out 3 feet apart in a deep, rich loamy soil. Seeds germinate slowly.

| Pkt. | Oz. | ¼ Lb. |
|-------------------|--------|--------|
| Black Beauty..... | \$.15 | \$.85 |

ENDIVE

Beginning in March, plant each month till September in 18-inch drills and thin out to one foot apart. When nearly grown, tie up the outer leaves to blanch the heart, but do it when the plants are dry. In dry seasons give plenty of water.

| Pkt. | Oz. | ¼ Lb. |
|--------------------------|--------|--------|
| Green Curled..... | \$.10 | \$.20 |
| Broad Leaf Batavian..... | .10 | .20 |

KALE

Sow seed in the open from early spring until the middle of August. The early sowings give fully grown plants, whereas the later sowings will turn out delicious, small, tender leaves. Frost improves the flavor. Thin to 12 in. apart in rows 2 to 3 ft. apart. One pkt. will sow 30 ft. of row: 1 oz. 200 ft.

DWARF GREEN CURLED—55 days. Low-growing compact plants with deeply curled, dark green leaves used for "greens." Pkt. 10c; oz. 25c; ¼ lb. 75c.

KOHL RABI

The edible part is the turnip-shaped bulb that grows above ground. Combines the flavors of the cabbage and turnip and makes a splendid dish if used when 2 to 3 inches thick. Plant in drills as early as the ground can be worked, thinning out to stand 5 to 6 inches in the row. In drills 1 foot apart, and when the plants are well up, thin to 1 foot in the row. When the plants are about 3 inches high cut off all the leaves; the plant will be brighter and better curled; every cutting will result in improvement. One ounce to 150 feet of drill.

| Pkt. | Oz. | ¼ Lb. |
|-------------------------|--------|--------|
| Early White Vienna..... | \$.15 | \$.60 |

LEEK

Plant February, March and September.

CULTURE. Superior to onions for soup flavoring, etc. Plant early in the spring in a light, rich, moist soil in drills half an inch deep. When 6 or 8 inches high, trim off the tops and roots and transplant 4 to 5 inches apart in one-foot rows setting the plants in the ground up to their center leaves, and earth up to blanch the necks. One ounce will plant about 100 feet of drill.

| Pkt. | Oz. | ¼ Lb. |
|--------------------------|--------|--------|
| American Broad-Leaf..... | \$.15 | \$.75 |

LETTUCE

¼ oz. to 100-ft. row: 3 lbs. to acre.

CULTURE. For general crop, sow as early in the spring as the ground can be worked in drills 16 inches apart, and thin the young plants to 4 inches apart in the row. As the plants begin to crowd, thin them out and use as required. Keep the soil constantly loose by frequent hoeing. Lettuce to be at its best should be grown as rapidly as possible by liberal manuring and thorough preparation. For winter, sow under glass from November to February and thin out as necessary to prevent crowding. Keep a moderate heat and give all the light and air possible.

MUSTARD

½ oz. to 100-ft. row. 5 lbs. to acre.

The greens, for which this quick growing plant is chiefly raised, are fully as healthful and nourishing as spinach. Mustard is related to turnip, and although the tops are much alike in richness and flavor, mustard leaves are more tender and the stems not so long and coarse.

Seed may be sown from early spring to midsummer in rows 18 inches apart. Thin to 5 or 6 inches apart in the rows. The plants are in condition for use as soon as the leaves are the size of one's hand. Mustard runs to seed quickly, so that successive plantings are necessary for a continuous supply.

| (Tendergreen)..... | .10 | .15 |
| Chinese Smooth Leaf..... | .10 | .15 |

OKRA or GUMBO

1 oz. to 100-ft. row. 8 lbs. to acre.

CULTURE. After danger of frost is past, the ground being warm and in good condition, plant in rows about 2 feet apart, covering about an inch deep with fine soil, firmly packed down. When about 2 inches high, thin to about 1 foot apart in the row. The young seed pods are used in soups, stews, etc. Very highly prized in the South.

| Pkt. | Oz. | ¼ Lb. |
|-------------------------------|--------|--------|
| Perkins Mammoth Long Pod..... | \$.10 | \$.15 |
| Dwarf Green Long Pod..... | .10 | .15 |
| Clemson's Spinless..... | .10 | .15 |

ONIONS

1/3 oz. to 100-ft. row. 4 to 5 lbs. to acre.

THE SOIL. Soft, dark, sandy loam, not too fine. This is much better if it has been cultivated with hoed crops, kept clean from weeds and well manured for two years previous, because if a sufficient quantity of manure to raise an ordinary soil to a proper degree of fertility is applied at once, it is likely to make the onions soft.

SOWING THE SEED. This should be done as soon as the ground can be made ready and can be done best by a hand seed drill. This should be carefully adjusted to sow the desired quantity of seed about one-half inch deep. The quantity depends on the soil and kind of onions desired. Four to five pounds is the quantity used for an acre to grow large onions.

HARNDEN'S LAWN GRASS SEEDS

ASK FOR PRICES IN LARGER LOTS

PRICES ON GRASS SEEDS

The quality of Blue Grass Seed is determined by the weight per measured bushel; the heavier the seed the better the germination and purity. With the aid of new, modern cleaning machinery, seed that will weigh 21 lbs. Standard Heavy Seed, 24 lbs. Extra Heavy Seed, and 28 lbs. Super fine seed, to the measured bushel can now be had. Seed that weighs less than 21 lbs. to the bushel is not fit for lawn sowing, on account of the low germination and weed seed contained.

PLEASE NOTE: The chaff and light seed and weeds that is cleaned out of Blue Grass is sold to some dealers, who advertise it as "BLUE GRASS" at ridiculously low prices. Do not be attracted by these offers, as there is no seedling value whatever in this off fall from good seed.

QUANTITY OF SEED TO USE

ON NEW OR RECONDITIONED LAWNS: Use one pound to each two hundred square feet and sixty to one hundred pounds to the acre.

RESEEDING OLD LAWNS: One pound to each three or four hundred square feet and thirty or fifty pounds to the acre.

Ask for Prices in Larger Quantities
KINDS OF GRASS TO SOW

KENTUCKY BLUE GRASS

On Well Established Lawns

For sowing in the open places, use high grade, heavy blue grass, with a portion of White Clover, if wanted. Use about three-fourths Blue Grass and one-fourth Clover.

STANDARD HEAVY SEED which will weigh about 21 lbs. to the measured bushel. Lb., \$1.20; 10 lbs., \$11.90; 25 lbs., \$29.50; 50 lbs., \$1.15 lb.; 112-lb. bag, \$1.10 lb.

EXTRA HEAVY SEED which will weigh about 24 lbs. to the measured bushel. Lb., \$1.35; 10 lbs., \$12.80; 25 lbs., \$30.75; 50 lbs., \$1.20 lb.; 112-lb. bag, \$1.15 lb.

SUPER FINE SEED which will weigh about 28 lbs. to the measured bushel. Lb., \$1.45; 10 lbs., \$13.80; 25 lbs., \$33.25; 50 lbs., \$1.30 lb.; 112-lb. bag, \$1.25 lb.

HORMONE TREATED—Any grass seed can be Hormone Treated at an additional cost of 10c per lb.
Simply mix Rootone at the rate of ½ oz. to 5 lbs. of seed. Rootone, ¼ oz. pkg., 25c; 2 oz. jar, \$1.00.

HARNDEN'S EVERGREEN LAWN SEED

For Making New Lawns in the Open Places
Lb., 85c; 10 lbs., \$8.30; 25 lbs., \$20.00;
50 lbs., 75c lb.; 100-lb. bag, 70c lb.

HARNDEN'S SHADY LAWN GRASS

For Shady Places and Under Trees
Lb., 95c; 10 lbs., \$9.30; 25 lbs., \$22.50;
50 lbs., 85c lb.; 100-lb. bag, 80c lb.

HARNDEN'S TERRACE LAWN GRASS

For Terraces and Steep Inclines
Lb., 95c; 10 lbs., \$9.30; 25 lbs., \$22.50;
50 lbs., 85c lb.; 100-lb. bag, 80c lb.

RED TOP

This is a very fine quick growing grass, which is also used in mixtures to thicken up the turf, looks very much like blue grass. Lb., 35c; 5 lbs., \$1.65; 25 lbs., \$7.00.

COLONIAL BENT GRASS

This is the true, unmixed creeping Bent Grass Seed, certified Oregon grown, of high germination and free from weed seeds. Lb., \$1.50; 5 lbs., \$7.00; 25 lbs., \$33.75.

CHEWINGS FESCUE

Chewings Fescue is a fine bladed perennial grass with a spreading deep root system which is very valuable on steep banks; also does well in sandy soils. Lb., \$1.25; 5 lbs., \$6.00; 25 lbs., \$28.75.

RYE GRASS

This grass germinates and grows very quickly. Is often used in mixtures as a nurse crop for blue grass and other slow growing grasses. Usually dies out about the second year. Used in the south for winter lawn grass. Lb., 20c; 10 lbs., \$1.90; 25 lbs., \$4.50.

WHITE DUTCH CLOVER Or Lawn Clover

A small, close growing, useful clover of unusual dwarf habit, used extensively in the making of lawns. Lb., \$1.25; 5 lbs., \$6.00; 25 lbs., \$1.15 lb.

EROSIONET for Stubborn Terraces

EROSIONET is a strong, economical, open-mesh fabric made of tightly twisted, paper twine. When placed over any seeded surface, its ¼-inch square mesh forms millions of tiny dams which catch and hold your seed and sod firmly in place. Thus, damaging "washouts" from heavy rains are effectively checked without cutting off the sunlight.

Erosionet also catches and holds moisture. It helps overcome seed losses and lawn disappointments from poor germination. Erosionet never presents an unsightly appearance, clover and grasses soon rendering it invisible. Erosionet is rot-resisting and can easily be removed when grass becomes 2½ in. high. Comes in rolls 45 in. wide and can be purchased in any lengths. Yard, 17c.
